

Expertise. Technology. Service. Worldwide.

DBC® Corporate Profile

The Industry Standard

DBC, founded in 1980, is the leading developer and provider of municipal finance analytic and structuring software applications in the U.S. As the largest software firm in the municipal finance industry, DBC products are the industry standard applications.

Clients include all of the top ten investment banks, regional investment banks, financial advisory firms, bond issuers and other finance professionals. DBC has thousands of users nationwide. It is estimated that approximately 85% of all annually negotiated new issuance municipal bonds are structured using DBC software.

DBC was acquired by SS&C Technologies, Inc. in November, 2002. SS&C is a leading provider of financial software, services and expertise and serves sophisticated investment managers worldwide. SS&C was traded on NASDAQ under the symbol SSNC. In November, 2005 the company was acquired by entities affiliated with The Carlyle Group and was taken private in a \$941 million transaction.
